SUMMARY

Skilled Frontend Developer with over 3 years of experience in web application development, specializing in **ReactJS**. Proficient in building scalable, secure, and efficient applications using **JavaScript**, **TypeScript**, **HTML5**, and **CSS3**, with modern frameworks like **Boot Strap, Material UI**, **Tailwind**, and. Proven track record in reducing API load times by 30% and enhancing user interaction efficiency by 25%. Experienced in developing dynamic dashboards, real-time visualizations, and intuitive UI/UX designs. Passionate about delivering high-performance applications with a strong foundation in Agile methodologies and cross-team collaboration.

TECHNICAL SKILLS

- **Frontend:** ReactJS, HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Styling & UI Libraries:** Boot Strap, Material UI, Tailwind CSS, ANT Design
- **State Management:** Redux, Redux-Saga, Context API, React Hooks
- **Version Control:** Git, GitHub, GitLab, Postman, Vercel
- **Design Tools:** Adobe XD, Figma
- **Chart Libraries:** Plotly.js, Apex, D3.js
- **Tools & Methodologies:** Visual Studio Code, Agile (Scrum, Sprint Planning, Retrospectives)

PROFESSIONAL EXPERIENCE

NINELEAPS TECHNOLOGY SOLUTIONS LIMITED **08/2025 - Present**

Software development Engineer -1

- Developing and maintaining the **Spry project** using **ReactJS**, **TypeScript**, **Ant Design**, **Redux**, and **Redux-Saga** for robust and scalable UI solutions.
- Actively involved in **Agile sprint planning**, contributing to feature design, estimation, and timely delivery.
- Focused on **performance optimization** and **UI responsiveness**, improving overall application efficiency and user experience.

ALTEN GLOBAL TECHNOLOGY PRIVATE LIMITED **10/2022 - 08/2025**

Software Developer

- Developed and maintained web applications using ReactJS serving 1000+ users daily.
- Optimized RESTful APIs, reducing average load times by 30% (from 3 seconds to 2.1 seconds), enhancing application performance.
- Converted Figma designs into responsive UIs with 99% pixel accuracy, ensuring a seamless user experience across web applications
- Implemented state management using Redux and Context API, increasing application efficiency and reducing interaction latency by 25%. Also Conducted debugging efforts, leading to a 25% reduction in bug reports, ensuring consistent application stability.
- Deployed both applications to a secure server, ensuring high performance, robust security, and compliance with industry standards.

PROJECTS

ERP – EASY TIME (Timesheet Management Application)

Technologies: ReactJS, JavaScript, Material UI, Context API, Recharts

Responsibilities:

- Developed responsive dashboards and timesheet pages using ReactJS, improving user efficiency for 1000+ users and achieving 98% Figma design accuracy.
- Optimized API calls and implemented pagination, resulting in a **30% reduction in data load time** and enhanced large dataset handling.
- Integrated Excel download functionality and RESTful APIs, boosting data export efficiency by **40%** and improving UI responsiveness by **25%**.

PREDICTIVE ANALYSIS (Anomaly Detection)

Technologies: ReactJS, JavaScript, Material UI, Context API, Apex Charts

Responsibilities:

- Developed the complete frontend for anomaly detection using ReactJS and integrated dynamic graphs with Apex, Plotly.js and D3.js, achieving **100%** real-time data visualization accuracy**.**
- Implemented real-time data streaming and rendering, enhancing insight delivery and reducing user wait time by **35%**.
- Handled large datasets with interactive charts and tree-structured data, resulting in a **40**% improvement in data representation efficiency**.**

TREIASURE AI (Resume Screening & Extraction Tool)

Technologies: ReactJS, Material UI, Key cloak, Ollama API

Responsibilities:

- Built a resume upload and keyword extraction feature using Ollama API, reducing HR screening time by **50%**.
- Integrated secure login and API authorization using Key cloak, improving authentication flow reliability by **100%**.
- Designed an intuitive UI with Material UI, boosting user usability scores by **30%** through streamlined candidate selection workflows.

EDUCATION

Bachelor of Engineering in **Electronics and Communication Engineering**
New Horizon College of Engineering, Bengaluru | **07/2018 – 07/2022** | GPA: **9.66**
